

Omanut Hapisul - TeriDove Project

TeriDove International Information profile

Company Name: Omanut Hapisul – TeriDove Project - 5 golden stars quality projects.

Owner: Nir Bacshy

The **TeriDove** is both an attractive and functional ornament protected by the International Patent Laws and a registered as a Trademark to Mr. Nir Bacshy from Israel.

Pigeons are territorial animals by nature. They nest in groups and couples, and they use their dropping to mark their territory. By the same token, they are unlikely to move in on previously occupied territory. By strategic placement of the **TeriDove** pigeons that might otherwise find the location appealing interpret the location as already inhabited by other pigeon families, they then move on in search of other locals.

The TeriDove project is running with highly percentage successful pest control in industries, garages, companies, problematic areas and houses in Israel – can be placed where nothing else can work.

Our costumers are:

1. **ICL industrials.**
2. **Nestle international.**
3. **Colmobile – Mercedes.**
4. **UMI – general motors.**
5. **Israeli army.**
6. **RAFAEL military development.**
7. **Private Houses.**
8. **Hotels.**
9. **Army Industries.**
